SECTION A MANAGEMENT DISCUSSION AND ANALYSIS

Venango Technology Center Management Discussion and Analysis June 30, 2019

The management discussion and analysis of Venango Technology Center's (the Center) financial performance provides an overall review of the Center's financial activities for the fiscal year ended June 30, 2019. The intent of the discussion and analysis is to look at the Center's financial performance as a whole. The financial statements and notes to the financial statements should also be reviewed for a more thorough overall understanding of the Venango Technology Center's financial performance.

Financial Highlights for 2019

- The Venango Technology Center's assets for the year ended June 30, 2019 totaled \$6,403,403 as reported in the Statement of Net Position. This total is comprised entirely of assets attributable to Governmental Activities.
- Total General Fund revenues as reported in the Statement of Revenues, Expenditures and Changes in Fund Balance received during the 2018-2019 school year were \$6,847,175. The following is a breakdown of the various funding sources:

Local Sources	\$ 5,349,409	(78%)
State Sources	\$ 1,347,600	(20%)
Federal Sources	\$ 150,166	(2%)

- The revenue and expenditure activity includes adult programs, unreimbursed after school programs and the activity attributable to regular day school. The day school programs' actual revenue and expenditure activity net to zero on the financial statements presented. Any budgeted amount paid by the sending schools for regular day school activity in excess of the actual is returned at the end of the fiscal year. This is primarily due to the effect of estimating the average daily membership for the amount to be provided by the sending schools. The net result was a refund to the sending schools of \$424,241 or approximately 9.13% of the amount budgeted.
- Total General Fund expenditures for the 2018-2019 school year, as reported in the Statement of Revenues, Expenditures and Changes in Fund Balance, were \$6,781,114. The following is a breakdown of the expenditures by major function:

1000	Instruction	\$ 3,130,650	(46.20%)
1600	Adult programs	\$ 1,127,448	(16.60%)
2000	Support Services	\$ 2,157,419	(31.80%)
5000	Debt Service	\$ 305,180	(4.50%).
5000	Fund Transfers	\$ 60,417	(0.90%)

• The Joint Committee of the Venango Technology Center authorized the establishment of a Capital Projects in the 2007-08 school year. The Venango Technology Center had previously returned all of the vocational subsidy to the sending schools. To fund the Capital Projects fund, the Venango Technology Center will retain 10% of these monies. The General Fund transfers to the Capital Projects during 2018-19 amounted to \$60,417. During 2018-2019, \$29,614 was used to renovate HVAC and \$37,173 was used to replace the PA system.

The Venango Technology Center continues to maintain a fiduciary fund type – the Harold B. Albright Scholarship Fund, a Private Purpose Trust Fund, which is used exclusively to provide scholarships to students. At June 30, 2019, the balance in this fund was \$67,631 as reported in the Statement of Net Position – Fiduciary Fund. It is important to note that these funds are never used for expenses in the general fund.

Overview of the Annual Financial Report

This annual report consists of three sections: The Management Discussion and Analysis (this section), a series of financial statements, and notes to those statements (required supplemental information).

The Governmental Accounting Standards Board (GASB) No. 68, Accounting and Financial Reporting for Pension, changed the manner in which the Net Position is presented. This pronouncement requires the Center to recognize the net pension liability and the annual expense related to this.

The Governmental Accounting Standards Board (GASB) No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, changed the manner in which the Net Position is presented. This pronouncement requires the Center to recognize the other postemployment benefits liability and the annual expense related to this.

The basic financial statements include two types of statements that present different financial views of the Venango Technology Center:

Government-Wide Statements

These statements report information about the Venango Technology Center, including the net position and changes in net position (as a whole), using accounting methods similar to those used by private-sector companies. There are two government-wide statements included in this annual financial report which provide both long-term and short-term information about the Venango Technology Center's overall financial status:

-Statement of Net Position Includes all the Center's assets and liabilities -Statement of Activities Includes all the Center's revenues and expenses

These government-wide statements are important components of financial reporting because they show the Venango Technology Center's net position and how it has changed. Net position, the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources, is one way to measure the Center's financial health or position. An important point with respect to net assets is that over time, increases or decreases in the Center's net position is an indicator of whether its financial position is improving or diminishing. Since the structure of the Center requires that it return any surplus from regular day school activities, the change in net position represents the change in long-term assets and liabilities and also the amount retained to fund programs for adult activities and after school secondary programs that are not subsidized by the State.

Additional non-financial factors such as changes in the Center's student enrollment, condition of the school grounds and facilities and long-term liabilities for compensated absences need to be considered for a true assessment of the Center's overall strength.

The government-wide Statement of Net Position and the Statement of Activities are divided into only one type of activity:

-Governmental Activities - All of the Center's basic programs and services are reported here, including instruction, adult, support services, operation and maintenance of plant, pupil transportation, and community services. Sending school contributions, state and federal subsidies, and grants finance most of these activities.

This presentation differs from that presented by a traditional school because there are no proprietary activities operated by the Venango Technology Center.

Fund Financial Statements

These statements provide detailed information about the Venango Technology Center's individual funds.

Governmental Funds - All of the Center's activities are reported in the government fund, which focuses on how money flows into and out of this fund and the change in financial position.

Typically, this is money available to spend during future periods or the next fiscal year. However, due to the agreement under which the Center was formed, any surplus funds are returned to the sending schools, except for those activities which are not related to traditional secondary education, such as adult programs and non-reimbursable after school programs.

The accounting method used in financial reporting for governmental funds is called the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted into cash. The governmental fund statements provide a detailed short-term view of the Center's operations and the services it provides. Governmental fund information helps determine whether there are more or fewer resources that can be spent in the near future to finance the Center's operations and educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Fiduciary Funds - This fund is one in which the Center is the trustee or fiduciary agent responsible for the funds.

There is one fiduciary fund for the Venango Technology Center: the Harold B Albright Scholarship, which is a Private-Purpose Trust Fund (Scholarships). All of the Center's fiduciary activities are reported in a separate Statement of Changes in Net Position – Fiduciary Fund. It is important to note that these funds are excluded from the Center's other financial statements because these assets cannot be used to finance the Center's operations.

Fund Balance Reporting

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). This statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories list below.

- 1. Nonspendable, such as fund balance associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned),
- 2. Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- 3. Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Joint Operating Committee (Venango Technology Center's highest level of decision-making authority),
- Assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed, and
- 5. *Unassigned* fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

Venango Technology Center's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting journal entries.

First non-spendable fund balances are determined. Then restricted fund balances for specific purposes are determined (not including non-spendable amounts). Then any remaining fund balance amounts for the non-general funds are classified as restricted fund balance.

It is possible for the non-general funds to have negative unassigned fund balance when non-spendable amounts plus the restricted fund balances for specific purposes amounts exceed the positive fund balance for the non-general fund.

Financial Analysis of the Venango Technology Center As A Whole

Nearly all of the Center's net assets are invested in capital assets net of related debt. Capital assets include building, land and equipment. Of the total net position, \$1,354,658 is assigned for adult programs, secondary programs that are not state reimbursable and the Capital Projects Fund. The unrestricted deficit relates to short and long-term liabilities necessary to fund payroll, compensated absences, net pension liability and deferred revenues in excess of current assets and investments.

The results of this year's operations as a whole are reported in detail on the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies directly related to specific expenses are deducted so that the final amount of the Venango Technology Center's activities that are supported by other general revenues can be shown. The largest general revenues are the sending school contributions, vocational education subsidy and grants.

Capital Assets

The Venango Technology Center capital assets represent the original building, which includes the addition of the Equipment operations area and all the related fixtures and equipment used to operate the facility.

As of June 30, 2019, the Center had \$12,995,926 invested in capital assets. The table below illustrates the breakdown of these capital assets and reflects a bottom-line total of Capital Assets, Net of Accumulated Depreciation.

	June 30, 2019	June 30, 2018
Land and Improvements	\$ 311,778	\$ 311,778
Buildings and Improvements	\$ 8,055,865	\$ 8,019,916
Furniture and Equipment	\$ 4,628,283	<u>\$ 4,419,072</u>
Total Capital Assets	\$12,995,926	\$12,750,766
LESS: Accumulated Depreciation	<u>(\$ 9,000,184)</u>	(\$ 8,565,541)
Total Capital Assets, Net Accumulated Depreciation	<u>\$ 3,995,742</u>	<u>\$ 4,185,225</u>

The primary changes in equipment relate to New Ford van \$27,600, \$36,867 in a new PLC equipment, \$37,173 to replace the PA system, \$18,990 for a Lathe in Machine Trades, \$35,949 to renovate HVAC, \$25,974 for a new John Deere Tractor and lastly \$27,551 for a Plasma cutter in Welding Technology.

Long-Term Liabilities

Short and long-term compensated absences are comprised of four components: Net pension liability, accrued vacation, post-employment health benefits for those who qualify and the liability for accumulated sick days earned. As of June 30, 2019, the balance in each of the areas is as follows:

	Short-Term	Long-Term	<u>Total</u>
Net Pension Liability Accrued Vacation Post-employment Health	\$ -	\$7,296,755	\$7,296,755
	33,045	-	33,045
Care Benefits	<u>-</u>	1,205,540	1,205,540
Accumulated Sick Days		<u>206,287</u>	206,287
Total	<u>\$33,045</u>	\$8,708,582	<u>\$8,741,627</u>

Total liabilities, deferred inflows of resources and net position	<u>\$6,735,258</u>	<u>\$7,222,525</u>	<u>(\$487,267)</u>	6.75%

- The difference in prepaid is a result of expenditures for the 2017-2018 Practical Nursing class in advance that did not happen in 2018-2019 of \$15,621.
- Changes capital assets were described in the capital asset section above and amounted to \$210,104.
- The investment in health consortium is up as a direct result of a good year in the self-funded participation in the NOREBT health consortium.
- Accounts payable is up because we had a VEX robot ordered for \$26,520, the new entrance was \$13,262, Truck repair of \$10,976 and the payment on the PA system of \$37,173
- Intergovernmental payables were down due to a decrease in the amount due to the sending schools.
- Compensated absences is up substantially due to the new teacher contract that paid more for unused sick days for future years.
- Capital Lease is less by the amount of the payment that was made during the year.

Comparative General Fund Revenues and Expenditures – Fund Accounting

services	67,554	66,518		1,036	1.56%
Fund Transfers	60,417	51,197		9,220	18.01%
Debt service	305,180	303,819		1,361	0.45%
	\$ 6,781,114	\$ 6,296,939	\$_	484,175	7.69%

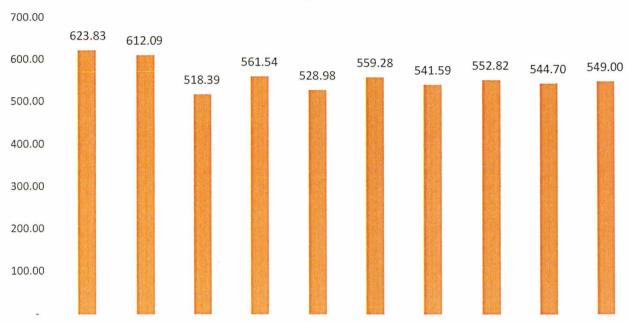

- The increase in vocational programs is a result of a VEX robot grant for \$26,520, two equipment grants in the amount of \$23,616 and \$21,309, a significant increase in vocational subsidy that allowed us to return more to the sending schools of \$82,985 and an aide for needy family grant in the amount of \$33,037.
- For the adult programs, we budget for at least 30 students in Warren and 30 in Oil City. We finished with 20 in Oil City and 21 in Warren in 17-18 and in 18-19 we had 18 in Oil City and 29 in Warren complete the program. We adjust personnel accordingly. The cost per student is \$14 which accounts for approximately \$70,000 of the increase. The nursing program contributed \$13,262 in entrance and egress renovations.
- Business services increased because the accounts payable clerk split her time between teaching marketing in 2017-2018 and accounts payable and 2018-2019 was back to full-time accounts payable. Therefore, her salary and benefits were back to normal.

The Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balance to the Statement of Activities describes the differences between the two methods of reporting.

Looking Forward

The financial outlook for the Venango Technology Center depends entirely on the enrollment provided by the sending schools. This enrollment has been reduced over the past couple years as a result of not replacing staff through attrition. Overall, the enrollment in relation to quota has held very close to 90% of quota. The past 10 year's enrollment is as follows:

Act 1 has put an increased emphasis on the need to consider the financial status of the home schools on a school by school basis and moved the budget time frame ahead seven months. The Center has begun budget discussions for 2020-2021. The Professional Advisory Committee, administration and the Joint Committee have been considering the instructional areas of the Center and discussion has begun to determine if expanding or eliminating program areas is in the best interest of the Center. This along with the continued funding of the Capital Projects fund, will allow continuing future capital improvements as the needs associated with a forty-year-old building continue to surface. Capital projects scheduled for the 2020-2021 school year include an in-house lighting project for approximately \$50,000 in lighting renovations.

The nature of an increasing special needs population and updating technology continue to be of utmost importance in planning for the future. The Center will continually look at ways to find additional sources of grants to continue to support future budgets. Also, continued increases in the cost to conduct business, including significant industry-wide increases in health-care costs and increases in the employer's share of retirement contributions remain an ongoing financial challenge facing the Center's Joint Committee and the administration in the future.

The adult education program areas are ones that will be continually explored in light of the expanded capabilities provided by the recent grants received. Adult education ventured into an agreement with PA Pride LLC during the 2011-2012 school year. PA Pride offers CDL training and will continue to pursue degree programs through relationships with community colleges. The Center is considering applying for accreditation through the PA Department of Education to offer a greater number of adult programs in the future.

Contacting the Venango Technology Center Financial Management

This financial report is designed to provide our sending schools, citizens, taxpayers, parents, students, investors, and creditors with a general overview of the Venango Technology Center's finances and to show the Center's accountability for the funds it receives. Questions about the information contained in this report should be directed to Patrick M. Adams, Business Manager/ Board Secretary, Venango Technology Center, 1 Vo-tech Drive, Oil City, PA 16301.

SECTION B AUDITOR'S REPORTS

INDEPENDENT AUDITOR'S REPORT

Joint Operating Committee of Venango Technology Center Oil City, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Venango County Area Vocational – Technical School (doing business as Venango Technology Center) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Venango Technology Center's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the

effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Venango Technology Center, as of June 30, 2019, and the respective changes in financial position and the respective budgetary comparison for the General Fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages A-1 through A-10 and the schedules of the Center's proportionate share of the net pension liability, the Center contributions for the pension plan, the Center's proportionate share of the PSERS net OPEB liability, the Center contributions for the PSERS OPEB plan, and changes in the Center's net OPEB liability and related ratios on pages F-1 through F-5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Venango Technology Center's basic financial statements. The supplementary schedule of special accounts is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal*

Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The supplementary schedule of special accounts and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary schedule of special accounts and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2019, on our consideration of the Venango Technology Center's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Venango Technology Center's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Venango Technology Center's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Joint Operating Committee of Venango Technology Center Oil City, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Venango County Area Vocational – Technical School (doing business as Venango Technology Center), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Venango Technology Center's basic financial statements, and have issued our report thereon dated November 4, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Venango Technology Center's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Venango Technology Center's internal control. Accordingly, we do not express an opinion on the effectiveness of Venango Technology Center's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Venango Technology Center's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Joint Operating Committee of Venango Technology Center Oil City, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited the Venango County Area Vocational – Technical School's (doing business as Venango Technology Center) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Venango Technology Center's major federal programs for the year ended June 30, 2019. Venango Technology Center's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Venango Technology Center's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Venango Technology Center's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Venango Technology Center's compliance.

Opinion on Each Major Federal Program

In our opinion, Venango Technology Center, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of Venango Technology Center is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Venango Technology Center's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Venango Technology Center's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SECTION E NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS

NOTE A - ENTITY

The Venango County Area Vocational – Technical School, doing business as Venango Technology Center (the Center) was established February 1966. The Center was organized under a joint operating agreement signed by participating school districts within attendance area as defined by Pennsylvania State Board of Education. The Center provides vocational and technical education to secondary pupils and out-of-school youths and adults. The Center is also a member of the Riverview Intermediate Unit 6. Participating school districts, which are the signatory to the joint operating agreement, are Cranberry Area School District, Forest Area School District, Franklin Area School District, Oil City Area School District, Titusville Area School District and Valley Grove School District.

A joint operating committee is comprised of board members from the participating school districts who determine the program orientations, courses to be included, personnel to be employed and all other matters pertinent to the operation of the Center including approval of the annual budget.

The participating school districts are responsible for funding the current operating expenses of the Center. The operating expenses are allocated in proportionate shares according to a three-year average of daily membership of pupils from each of the participating school districts.

Reporting Entity

The Governmental Accounting Standards Board Statement No. 14 "The Financial Reporting Entity", established the criteria for determining the activities, organizations and functions of government to be included in the financial statements of the reporting entity. In evaluating the school as a reporting entity, management has addressed all potential component units, which may or may not fall within the school's financial accountability. The criteria used to evaluate component units for possible inclusion as part of the school's reporting entity are financial accountability and the nature and significance of the relationship.

This report includes all of the funds of the Center based on the above criteria.

The following is a component unit of the Center:

The Venango County Area Vocational Technical School Authority (the Authority) was established as a borrowing entity due to the fact that the Center cannot legally borrow funds on its own. The Authority has no assets, liabilities or net position; therefore, it has not been included in this report.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Center have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Center's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements as well as applicable Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless they conflict with GASB pronouncements.

Fund Account Structure

The accounts of the Center are maintained and the accompanying fund financial statements have been prepared on the accounting practices prescribed or permitted by the Manual of Accounting and Related Financial Procedures for Pennsylvania Department of School Systems (revised), issued by the Pennsylvania Department of Education in accordance with school laws of Pennsylvania.

The accounts of the Center are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into two broad fund categories: governmental and fiduciary. Each category, in turn, is divided into separate fund types.

Governmental Fund Type

These are the funds by which the governmental functions are furnished. The funds included in this category are:

General Fund

The general fund is the general operating fund of the Center. It is used to account for all financial resources not accounted for in another fund.

Capital Projects Funds

Capital projects funds are used to account for all financial resources that are restricted, committed, or assigned to expenditures for capital outlay (other than those financed by proprietary funds, special assessment funds and trust funds).

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Fiduciary Fund Types

Trust and agency funds are used to account for assets held by the Center in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. These include expendable trust and agency funds.

Trust funds account for the awarding of scholarships and other accounts sponsored by individuals. Expendable trust funds are accounted for in essentially the same manner as governmental funds.

Government-Wide Financial Statements – Basis of Presentation

Government-wide financial statements report information about the Center as a whole. The statement of net position and the statement of activities include the financial activities of the primary government, except for fiduciary funds. As a general rule, the effect of interfund activity has been eliminated from these statements.

The government-wide statements are prepared using the economic resources measurement focus. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents comparison between direct expenses and program revenues for each function or program of the Center's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Center, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the Center.

Fund Financial Statements – Basis of Presentation

Fund financial statements report detailed information about the Center. The focus of governmental financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Fiduciary funds are reported using the economic resources measurement focus.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows relating to the net pension and OPEB obligations reported on the statement of net position qualify for reporting in this category.

In addition to liabilities, the statement of net position and or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows relating to the net pension and OPEB obligations reported on the statement of net position qualify for reporting in this category.

Net Position

Net position is classified into three categories according to external donor or legal restrictions or availability of assets to satisfy the District's obligations. Net position is classified as follows:

Net Investment in Capital Assets: This component of net position consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of debt that is attributable to the acquisition, construction, and improvement of the capital assets, plus deferred outflows of resources less deferred inflows of resources related to those assets.

Restricted Net Position: This component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.

Unrestricted: This consists of all other net position that does not meet the definition of net investment in capital assets or restricted net position.

Fund Balance Reporting

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54). This statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories listed below.

- 1. *Nonspendable,* such as fund balance associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned),
- 2. Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation,
- 3. Committed fund balance classification includes amounts that can be used only for the specific purposes pursuant to constraints imposed by formal resolutions of the Joint Operating Committee (the Center's highest level of decision-making authority). Those committed amounts cannot be used for any other purpose unless the Center's Joint Operating Committee removes the specified use by taking the same type of action imposing the commitment,
- 4. Assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed, and
- 5. *Unassigned* fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

The Center's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting journal entries.

First non-spendable fund balances are determined. Then restricted fund balances for specific purposes are determined (not including non-spendable amounts). Then any remaining fund balance amounts for the non-general funds are classified as restricted fund balance.

It is possible for the funds to have negative unassigned fund balance when non-spendable amounts plus the restricted fund balances for specific purposes amounts exceed the positive fund balance for the non-general fund.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Revenues, Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Center, available means expected to be received within sixty days of fiscal year-end.

Non-exchange transactions, in which the Center receives value without directly giving equal value in return, include grants, entitlements and donations. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Center must provide local resources to be used for a specified purpose, and expenditure requirements in which the resources are provided to the Center on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized under the modified accrual basis. The following revenue sources are considered to be both measurable and available at fiscal year end: interest, tuition, grants, student fees and rentals.

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as unearned revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgets

The Center is required by state laws to adopt annual budgets for the general fund. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles (GAAP).

The budgetary information included in the financial statements is stated as adjusted by budget transfers made during the year.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Encumbrances

Encumbrances are recorded when purchase orders are approved and orders have been placed for goods or service. Outstanding purchase orders are classified as accounts payable at year end.

Cash

Cash includes time deposits and all highly liquid investments with original maturities of three months or less.

Inventories

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (consumption method). The inventory of the general fund consists of materials and supplies, which are valued at estimated cost. The cost is recorded as an expenditure at the time the inventory is consumed.

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the Center as assets with an initial, individual cost of more than \$1,500 and an estimated useful life in excess of one year. In addition, capital assets purchased with long-term debt may be capitalized regardless of the thresholds established. Such assets are reported at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are reported at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed and are reported in the Statement of Net Position as construction in progress. Interest incurred during the construction of capital assets is capitalized. Because of the nature of its operations, the Center does not possess any infrastructure.

All reported capital assets are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

Governmental Activities

<u>Description</u>	Estimated Lives
Land improvements Building and building improvements Furniture and equipment Vehicles	20 years 25-40 years 5-20 years 5-12 years

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Compensated Absences

The Center employees are permitted to accumulate unused vacation, sick and personal time. Contract provisions require payment for this benefit upon retirement, death or disability based on a negotiated formula.

At June 30, 2019, the accumulated benefit payable consists of:

Current:

Accrued vacation

\$ 33,045

Long term:

Accumulated sick days

_206,287

\$239,332

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to the pensions, and pension expense, information about the fiduciary net position of the Pennsylvania Public School Employee's Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources, and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Center's Retiree Benefits Plan and the Public School Employees' Retirement System and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Impact of Recently Issued Accounting Principles

GASB Statement No. 84, *Fiduciary Activities*, is effective for periods beginning after December 15, 2018. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. Management is currently evaluating the impact of the adoption of this Statement on the Center's financial statements.

GASB Statement No. 87, *Leases*, is effective for reporting periods beginning after December 15, 2019. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. Management is currently evaluating the impact of the adoption of this Statement on the Center's financial statements.

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period is effective for reporting periods beginning after December 15, 2019. The objectives of this Statement are to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest costs incurred before the end of a construction period. Management is currently evaluating the impact of the adoption of this Statement on the Center's financial statements.

Review of Subsequent Events

The Center has evaluated subsequent events for potential recognition and/or disclosure through the date the financial statements were available for issuance which was November 4, 2019.

NOTE C - CASH AND INVESTMENTS

Pennsylvania statutes provide for investment of governmental funds into certain authorized investment types including U.S. Treasury bills, other short-term U.S. and Pennsylvania government obligations and insured or collateralized time deposits and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow the pooling of governmental funds for investment purposes.

In addition to the investments authorized for governmental funds, fiduciary fund investments may also be made in corporate stocks and bonds, real estate and other investments consistent with sound business practice.

Deposits of the governmental funds are maintained in demand deposits. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the Center. The Center has no investment policy that would further limit its investment choices.

The Center does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

<u>Cash</u>

At June 30, 2019, the deposits (cash) of Venango Technology consist of:

	General <u>Fund</u>	Capital Project <u>Fund</u>	<u>Total</u>
Bank balance	\$1,437,519	\$646,236	\$2,083,755
FDIC insured	(520,235)	(250,000)	(770,235)
Collateralized by securities held by the pledging financial institution's trust department	\$ 917,284	<u>\$396,236</u>	<u>\$1,313,520</u>
Carrying amount	<u>\$1,371,236</u>	<u>\$646,236</u>	<u>\$2,017,472</u>

At June 30, 2019, the Center's deposits exceeded the \$250,000 Federal Depository Insurance Corporation limit by \$1,313,520; however, no losses occurred due to this situation. For the uninsured balances, the financial institution pledges U.S. Government Securities for these deposits in accordance with the Act of August 6, 1971 (P.L. 281 No. 72).

Investments

Investments are valued based upon closing prices from established stock exchanges.

The investments of the Center at June 30, 2019 consist of:

Fiduciary Fund	Carrying Amount	Cost
Money Market (uninsured) Marketable equities and mutual funds	\$16,029 _51,602	\$16,029 49,722
	<u>\$67,631</u>	<u>\$65,751</u>

The following schedule summarizes the investment return for the year ended June 30, 2019:

Interest and dividend income	\$1,555
Realized gain (loss) on investments, net	695
Unrealized gain (loss) on investments, net	(2,045)
	¢ 205

NOTES TO FINANCIAL STATEMENTS, CONTINUED

NOTE D - FAIR VALUE MEASUREMENTS

The Center measures fair value in accordance with Financial Accounting Standards Board (FASB), Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures. The codification provides a three level hierarchy that prioritizes the inputs of the valuation techniques used to measure fair value. Inputs are defined as assumptions used by market participants while pricing the asset or liability, including assumptions about risks. The following is a summary of the three levels, with level one having the highest priority and level three having the lowest priority:

Level 1 – Inputs to the valuation technique generally are quoted prices in active markets for identical assets or liabilities. The Center has the ability to access these assets or liabilities at the measurement date.

Level 2 – Inputs to the valuation technique generally are available indirect information, such as quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3 – Inputs are unobservable and generally allow for situations in which there is little, if any, market activity. The inputs are based on the Center's own assumptions about the factors that market participants would use in pricing the asset or liability.

The following table sets forth by level, within the fair value hierarchy, the Center's assets at fair value as of June 30, 2019:

	<u>Level 1</u>	Level 2	Level 3
Money market funds	\$16,029	\$ -	\$ -
Bond funds	26,226	-	_
Equity funds	19,494	-	-
Mutual funds	_5,882		
Total investments	<u>\$67,631</u>	<u>\$ </u>	<u>\$ - </u>

The valuation techniques used for the assets measured at fair value are as follows:

Mutual Funds

The investments are valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is calculated based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price from an active market and are classified as level 1 of the hierarchy. Valuation techniques that use quoted prices from a non-active market would be classified as level two of the hierarchy.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Bond & Equity Funds

These investments are valued at the closing price reported in the active market in which the individual security is traded. They are classified within level 1 of the valuation hierarchy.

The Center has made no changes in the methodology of the valuation techniques.

NOTE E – FEDERAL AND STATE SUBSIDIES RECEIVABLES

Federal and state subsidies receivables consist of the following at June 30, 2019:

Social Security reimbursement	\$ 44 <i>,</i> 887
Public School Employees' Retirement System	173,245
Licensed Practical Nursing	6,167
	\$224.299

NOTE F - INVESTMENT IN HEALTH CONSORTIUM

The Center participates in the Northwestern Region Employee Benefit Trust for health insurance benefits. At June 30, 2019, the Center's investment was \$107,956, which represents the Center's portion of the Trust fund balance at year end.

NOTE G - CAPITAL ASSETS

Capital Assets activity for the year ended June 30, 2019 was as follows:

	Beginning <u>Balance</u>	Additions	Disposals	Ending <u>Balance</u>
Governmental Activities				
Capital assets not being depreciated:				,
Land	\$ 32,737	\$ -	\$	\$ 32,737
Capital assets being depreciated:				
Land improvements	279,041	-	-	279,041
Buildings and building improvements	8,019,916	35,949	-	8,055,865
Furniture, equipment and vehicles	4,419,072	228,504	(19,293)	4,628,283
Total capital assets, being depreciated	_12,718,029	<u>264,453</u>	(19,293)	12,963,189

NOTES TO FINANCIAL STATEMENTS, CONTINUED

	Beginning <u>Balance</u>	Additions	<u>Disposals</u>	Ending <u>Balance</u>
Accumulated depreciation for:				
Land improvements	(134,142)	(17,601)	-	(151,743)
Buildings and building improvements	(5,022,634)	(262,503)	-	(5,285,137)
Furniture, equipment and vehicles	(3,408,765)	(169,009)	_14,470	(3,563,304)
Total capital assets, being depreciated, net	(8,565,541)	(449,113)	_14,470	(_9,000,184)
Governmental activities capital assets, net	\$4,185,225	(\$184,660)	(\$ 4,823)	<u>\$3,995,742</u>

Depreciation expense was charged to governmental functions as follows:

Instruction	\$292,835
	•
Instructional student support	42,562
Administrative and finance	40,611
Operation and maintenance of plant services	41,952
Student transportation	31,153
	<u>\$449,113</u>

Assets acquired under capital lease obligation are \$3,465,094. Related accumulated depreciation for year ended June 30, 2019 is \$755,216.

NOTE H - INTERFUND RECEIVABLES AND PAYABLES

The composition of interfund balances as of June 30, 2019, is as follows:

Receivable Fund	<u>Payable Fund</u>	<u>Purpose</u>	<u>Amount</u>
Capital Project Fund	General Fund	Funding	\$14,087

NOTE I – INTERFUND TRANSFERS

The composition of and purpose of transfers between funds during the June 30, 2019 year-end is as follows:

<u>Recipient Fund</u>	Payor Fund	<u>Purpose</u>	<u>Amount</u>
Capital Project Fund	General Fund	Funding	<u>\$60,417</u>

NOTES TO FINANCIAL STATEMENTS, CONTINUED

NOTE J - CAPITAL LEASE OBLIGATION

Series of 2014

Series of 2014

On July 7, 2014, the Center refinanced the Series of 2009 with the Lease Revenue Note, Series of 2014, with the State Public School Building Authority in the aggregate amount of \$2,632,000 with interest at 2.10%, maturing February 2024. The proceeds of the Series of 2014 were used to (a) satisfy the outstanding Series of 2009 obligation along with accrued interest and (b) related costs and expenses of refinancing.

On June 4, 2009, the Center also entered into a sublease of the school facilities with the Authority on which the rental payments will be sufficient to pay, when due, the principal and interest of the 2009 Bonds plus fees and expenses. On July 7, 2014, the sublease agreement was amended and restated in accordance with the Lease Revenue Note, Series of 2014, principal and interest obligations. The security for the note is the payments received from the participating schools for their respective share of the payments on the capital lease obligation.

The following is a summary of changes in the Capital Lease Obligations for the year ended June 30, 2019:

Balance 06/30/18	<u>Issued</u>	Retired	Balance 06/30/19
\$1,716,000	\$ -	\$272,000	\$1,444,000

The obligation has been recorded in the accompanying government wide financial statements as follows:

Current portion	\$ 274,000
Long-term portion	1,170,000
	\$1,444,000

Venango County Area Vocational – Technical School Lease Revenue Note Series of 2014 will mature as follows:

Years ending June 30,	
2020	\$ 301,447
2021	305,588
2022	304,571
2023	303,450
2024	306,182
	1,521,238
Less interest expense	(77,238)

<u>\$1,444,000</u>

VENANGO TECHNOLOGY CENTER NOTES TO FINANCIAL STATEMENTS, CONTINUED

NOTE K - DEFINED BENEFIT PENSION PLAN

General Information about the Pension Plan

Plan description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees in the Commonwealth of Pennsylvania. The members eligible to participate in PSERS include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least one year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of three years of service or attain a total combination age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2.00% or 2.50%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011 after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2.00% or 2.50%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Member Contributions:

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011 automatically contribute at the Membership Class T-E rate of 7.50% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.30% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.50% and 9.50% and Membership Class T-F contribution rate to fluctuate between 10.30% and 12.30%.

Employer Contributions:

The Center's contractually required contribution rate for the fiscal year ended June 30, 2019 was 32.60% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District's contributions to the plan for the year ended June 30, 2019 was \$703,934 which was 100% of the required contributions.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2019, the Center reported a liability of \$7,296,755 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2017 to June 30, 2018. The Center's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2019, the Center's proportion was .0152%, which was a decrease of 0.0011% from its proportion measured as of June 30, 2018.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

For the year ended June 30, 2019, the Center recognized pension expense of \$569,000. At June 30, 2019, the Center reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected		
and actual experience	\$ 58,737	(\$112,942)
Changes in assumptions	135,956	- -
Net difference between projected		
and actual investment earnings	35,762	-
Changes in proportions	12,000	(541,000)
Difference between employer contributions		
and proportionate share of total contributions	15,868	-
Contributions subsequent to the		
measurement date	64,056	
TOTAL	<u>\$322,379</u>	(\$653,942)

\$64,056 reported as deferred outflows of resources related to pensions resulting from Center contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2020 2021 2022 TOTAL	(98,905) 98,905) 98,904) 98,619)
2019 2020		98,905) 98,905)

Actuarial Assumptions

The total pension liability as of June 30, 2018 was determined by rolling forward the System's total pension liability at June 30, 2017 to June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay.
- Investment return 7.25%, include inflation at 2.75%.
- Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

 Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study that was performed for the five-year period ending June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

		Long-Term Expected Real
Asset Class	Target Allocation	Rate of Return
Global public equity	20.0%	5.2%
Fixed income	36.0%	2.2%
Commodities	8.0%	3.2%
Absolute return	10.0%	3.5%
Risk parity	10.0%	3.9%
Infrastructure/MLPs	8.0%	5.2%
Real Estate	10.0%	4.2%
Alternative investments	15.0%	6.7%
Cash	3.0%	0.4%
Financing (LIBOR)	(20.0%)	0.9%
TOTAL	<u>100%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2018.

VENANGO TECHNOLOGY CENTER NOTES TO FINANCIAL STATEMENTS, CONTINUED

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Center's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage point higher (8.25%) than the current rate:

	1 %	Current	1%
	Decrease	Discount Rate	Increase
	<u>6.25%</u>	<u>7.25%</u>	<u>8.25%</u>
The Center's proportionate share of the net pension liability	\$9,044,865	<u>\$7,296,755</u>	<u>\$5,818,677</u>

Pension Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.pa.gov.

Payables to the Pension Plan

At June 30, 2019, the Center had an accrued balance due to PSERS, including contributions related to pension and OPEB of \$73,261. This amount represents the Center's contractually obligated contributions for wages earned during the 2019 year-end. The balance will be paid in the 2020 year-end.

NOTE L – OTHER POST-EMPLOYMENT BENEFITS PLANS

General Information about the OPEB Plan

Plan Description

The Center administers a single-employer defined benefit OPEB plan that provides healthcare benefits to all eligible retirees who qualify and elect to participate.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Benefits Provided

The Plan provides medical, prescription drug, dental, vision, and life insurance for eligible retirees based on specific eligibility requirements. Coverage, premium sharing, and life insurance amounts vary by employee classification.

Employees Covered by Benefit Terms

Membership in the plan consisted of the following at June 30, 2019, the date of the last actuarial valuation.

Active participants	26
Retired participants	5
Spouses of participants	<u>25</u>
TOTAL	56

Total OPEB Liability

The Center's total OPEB liability of \$888,628 was measured as of June 30, 2019, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs

Salary increases

The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Discount rate	2.50%
Healthcare cost trend rates	Rates for each benefit, respectively, ranging from 3.0% to
	7.6% in 2019 and decreasing gradually over the next ten
	years.
Mortality rate	RP2000 Mortality Table for Males and Females Projected

3.00%

18 years; this assumption does not include a margin for

future improvements in longevity.

The actuarial assumptions used in the June 30, 2019 actuarial valuation were based on census information at that time and is believed to be representative of the population for the 2018-2019 school year.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the Center, as well as what the Center's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	<u>1% Decrease</u>	Current Rate	1% Increase
Total OPEB liability (asset)	<u>\$827,588</u>	<u>\$888,628</u>	<u>\$959,353</u>

For the year ended June 30, 2019, the Center recognized OPEB expense of \$31,389.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

PSERS OPEB Plan

General Information about the Health Insurance Premium Assistance Program

Health Insurance Premium Assistance Program

The System provides Premium Assistance which is a governmental cost sharing, multiple-employer OPEB plan for all eligible retirees who qualify and elect to participate. Employer contributions rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2018 there were no assumed future benefit increase to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2018 there were no assumed future benefit increases to participating eligible retirees.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Employer Contribution

The Center's contractually required contribution rate for the fiscal year ended June 30, 2019 was 0.83% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the Center were \$17,922 for the year ended June 30, 2019.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the Center reported a liability of \$316,912 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2017 to June 30, 2018. The Center's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2019, the Center's proportion was .0152%, which was a decrease of .0011% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2019, the Center recognized OPEB expense of \$11,000. At June 30, 2019, the Center reported deferred outflows of resources and deferred inflows of resources related to the OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected		
experience	\$1,957	\$ -
Changes in assumptions	5,010	(12,009)
Net difference between projected and actual		
earnings on OPEB plan investments	535	-
Changes in proportion	-	(22,000)
Difference between employer contributions and		, .
proportionate share of total contributions	299	-
Contributions subsequent to the measurement	•	
date	<u> 1,675</u>	
TOTAL	<u>\$9,476</u>	<u>(\$34,009)</u>

NOTES TO FINANCIAL STATEMENTS, CONTINUED

\$1,675 reported as deferred outflows of resources related to the OPEB resulting from the Center contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended		
2019	(\$ 6,552)	
2020	(6,552)	
2021	(6,552)	
2020	(6,552)	
Total	(\$26,208)	

Actuarial Assumptions:

The Total OPEB Liability as of June 30, 2018, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2017 to June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay.
- Investment rate of return 2.98% S&P 20 Year Municipal Bond Rate.
- Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS's experience and projected using a modified version of the RP-2015 Mortality Improvement Scale.
- Participation rate:
 - Eligible retirees will elect to participate Pre age 65 at 50%
 - Eligible retirees will elect to participate Post age 65 at 70%

The actuarial assumptions used In the June 30, 2017 valuation were based on the results of an actuarial experience study that was performed for the five-year period ending June 30, 2015.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2016 determine the employer contribution rate for fiscal year 2018.
- Cost method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates and retirement ages were based on the RP-2000 Combined Health Annuitant Tables with age set back 3 for both males and females for healthy annuitants and for dependent beneficiaries. For disabled annuitants, the RP-2000 Combined Disabled Tables with age set back 7 years for males and 3 years for females for disabled annuitants. (A unisex table based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 years for both genders assuming the population consists of 25% males and 75% females is used to determine actuarial equivalent benefits.)

Investments consist primarily of short-term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

OPEB-Asset Class	Target <u>Allocation</u>	Long-Term Expected Real <u>Rate of Return</u>
Cash	5.90%	.03%
U.S. Core Fixed Income	92.80%	1.20%
None U.S. Developed Fixed	1.30%	.40%
Total	<u>100.00%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2018.

Discount Rate

The discount rate used to measure the total OPEB Liability was 2.98%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy set contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB's plan fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.98% which represents the S&P 20-year Municipal Bond Rate at June 30, 2018, was applied to all projected benefit payments to measure the total OPEB liability.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2018, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2017, 93,380 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2017, 1,077 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retires receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the System net OPEB liability for June 30, 2018, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if its health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

1% Decrease Trend Rate 1% Increase

System net OPEB liability \$2,084,537,000 \$2,084,949,000 \$2,085,279,000

Sensitivity of the Center's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability, calculated using the discount rate of 2.98%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.98%) or 1-percentage point higher (3.98%) than the current rate:

	1% Decrease <u>1.98%</u>	Trend Rate 2.98%	1% Increase 3.98%
The Center's proportionate share of the net OPEB liability	<u>\$360,410</u>	<u>\$316,912</u>	<u>\$280,806</u>

OPEB Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.pa.gov.

Payables to the Pension Plan

At June 30, 2019, the Center had an accrued balance due to PSERS, including contributions related to pension and OPEB of \$73,261. This amount represents the Center's contractually obligated contributions for wages earned during the 2019 year-end. The balance will be paid in the 2020 year-end.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

NOTE M - FUND BALANCE REPORTING

Nonspendable Fund Balance

The Center's nonspendable fund balance represents the amount of funds invested in inventories. At June 30, 2019, the total amount of nonspendable fund balance was \$14,350.

Assigned Fund Balance

The Center's assigned fund balance is fund balance reporting occurring by Joint Operating Committee authority, under the direction of the Chief Business Officer.

The Joint Operating Committee authorized the establishment of fund balances to retain the excess of revenue over expenditures directly related to the practical nursing and adult education programs. These funds are expressly assigned by the committee for the operation of these programs in future years and are considered to be general fund assigned fund balances. During the year ended June 30, 2019, program operations resulted in an increase of \$138,802 to the practical nursing fund balance and a decrease of \$72,741 to the adult education fund balance.

As of June 30, 2019, balances for each in the General Fund program are as follows:

Practical Nursing	\$695,328
Adult Education Programs	(993)
Total assigned fund balances	<u>\$694,335</u>

The capital project fund, formerly the capital reserve fund, is funded annually by a transfer from the general fund equal to 10% of the vocational education subsidy received each year. The amount transferred for the year ended June 30, 2019 was \$60,417. At June 30, 2019 the total amount assigned for future capital projects which have not been specifically identified by the board was \$660,323.

NOTE N – OPERATING LEASE COMMITMENTS

The Center budgets annually for a non-cancelable operating lease for office and computer equipment. Total lease expense was \$11,319 for the year ended June 30, 2019.

The following is a schedule, by years, of the future minimum rentals under the lease at June 30, 2019:

Years ending June 30,	
2020	\$12,393
2021	5,830
2022	<u>925</u>

\$19,148

NOTES TO FINANCIAL STATEMENTS, CONTINUED

NOTE O – JOINT VENTURE

The joint operating agreement with the participating school districts, as described in Note A, provides that each district bear a portion of the current operating expenses based on a three-year audited average daily membership (ADM) of pupils in the program from each participating school district.

The total ADM expenditures also include the participating school district's respective share of the annual cost associated with the capital lease obligation.

The distribution of expenditures is as follows at June 30, 2019:

				3 Year	
Member	15-16	16-17	17-18	Average	ADM
<u>Districts</u>	ADM%	ADM%	ADM%	<u>Audit</u>	Expenditures
Cranberry	13.73	11.37	11.85	12.33	\$ 520,384
Forest Area	6.66	7.09	7.04	6.93	292,405
Franklin	24.82	22.88	23.59	23.77	1,003,050
Oil City	25.13	22.75	23.43	23.78	1,003,650
Titusville	19.68	23.44	20.59	21.23	896,107
Valley Grove	9.98	_12.47	13.50	<u> 11.96</u>	504,734
-					
	<u>100.00</u> %	<u>100.00</u> %	<u>100.00</u> %	<u>100.00</u> %	<u>\$4,220,330</u>

ADM expenditures relate only to costs incurred for operations of the day school program and do not include the costs incurred for the adult programs and non-reimbursable after school program.

The districts pay eight installments to the Center based on the expenditures in the Center's annual budget. The difference between the payments made and the actual expenditures, as computed above, is refunded to the home schools or paid to the Center as necessary. At June 30, 2019, the amount due to the member schools was \$424,241 and is reported as intergovernmental payables.

Audited financial statements for the year ended June 30, 2019 for the member districts are available at their business offices.

NOTE P - CONCENTRATION OF REVENUE

Of the Center's total general fund's receipts, approximately 75% are derived from charges for tuition to individuals and the member school assessments in the fund financial statements and the government-wide financial statements.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

NOTE Q – RISK MANAGEMENT

The Center is exposed to various risks of loss related to torts, theft or damage to and destruction of assets, errors and omissions, injuries to employees and natural disasters. The Center currently reports its risk management activities in the general fund.

The Center carries commercial insurance for all types of loss, including workers' compensation. There have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

NOTE R – CONTINGENT LIABILITIES

Grant Programs

The Center participates in both state and federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The Center is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of non-compliance which would result in the disallowance of program expenditures.

SECTION F REQUIRED SUPPLEMENTARY INFORMATION

Contributions as a percentage of covered-employee payroll	32.93%	31.54%	28.67%	24.53%	20.10%	15.58%	11.48%	8.01%	5.05%	4.02%

Notes to Schedule:

Changes of benefits terms:

With the passage of Act 5 class T-E & T-F members are now permitted to elect a lump sum payment of member contributions upon retirement.

Changes in assumptions:

None.

Method and assumptions used in calculations of actuarially determined contributions:

The actuarially determined contributions are calculated as of June 30, 2018 actuarial valuation will be made during the fiscal year ending June 30, 2019. The following actuarial methods and assumptions were used to determine contribution rates reported in the schedule:

- 1) Investment return 7.25%, including inflation at 2.75% and the real rate of return of 4.50%
- 2) Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and real wage growth and merit or seniority of 2.25%
- 3) Benefit payments no postretirement benefit increases assumed in the future.
- 4) Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

Contributions as a percentage of covered-employee payroll	0.84%	0.83%	0.83%	0.82%	0.88%	0.91%	0.86%	0.65%	0.65%	0.78%

Notes to Schedule:

Changes of benefits terms:

There were no changes of benefit terms for the year ended June 30, 2019.

Changes in assumptions:

The Discount Rate decreased from 3.13% to 2.98%.

Method and assumptions used in calculations of actuarially determined contributions:

The actuarially determined contributions are calculated as of June 30 preceding the fiscal year in which contributions are made. That is, the contribution calculated as of the June 30, 2018 actuarial valuation will be made during the fiscal year ending June 30, 2019. The following actuarial methods and assumptions were used to determine contribution rates reported in the schedule:

- 1) Investment return 2.98% S&P 20 Year Municipal Bond Rate.
- 2) Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and real wage growth and merit or seniority of 2.25%.
- 3) Benefit payments no postretirement benefit increases assumed in the future.
- 4) Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the RP-2015 Mortality Improvement Scale.
- 5) Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.

Source Codes: D - Direct Funding

I - Indirect Funding

F - Federal Funding

Note A - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the Venango Technology Center under programs of the federal government for the year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Venango Technology Center, it is not intended to and does not present the net position or changes in net position of Venango Technology Center.

Note B - Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Venango Technology Center has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note C - Subrecipient Funding

There were no funds passed through to subrecipients from any of the federal programs.
